

Eastfolk Creative Co.

We are Carly + Jesse, two friends based in Pennsylvania, dedicated to sharing the stories of makers, thinkers, + doers through our creative work. We specialize in documentary style photo + video, capturing genuine moments within natural environments + creating original assets that authentically reflect the essence of each brand we work with. From conception to final delivery, we provide comprehensive guidance throughout the creative process, ensuring that the brand's story is effectively communicated to its intended audience.
